

JUULs, DABS, 40s and Goodfellas

What Parents Really Need to Know

October 23, 2018 • 7:00 p.m.— 9:00 p.m.

Doors open at 6:30 p.m.

First United Methodist Church-Woodstock
201 W. South Street, Woodstock IL 60098

Students are using substances like vaping, marijuana, alcohol, and prescription medications including opioids at younger ages and it is important for parents to be aware of the sign and symptoms of use and abuse.

This event will help parents identify the important cues and will have examples of many of the items that are used by students both for use and hiding materials from parents and other adults.

In addition, and most importantly, we will provide local resources for anybody that is or might face a substance use issue with family or friends.
